OUTSTATE EMPLOYEES

The issue of options to attract persons residing outside the Bismarck-Mandan area to apply for session employment recurs during discussions of session employee compensation.

One option is to provide for reimbursement for lodging in the amount provided under North Dakota Century Code (NDCC) Section 44-08-04 (not to exceed \$55 per day plus applicable state or local taxes) for employment "away from the claimant's normal working and living residence." Under Section 54-03-20, legislators are limited to a maximum of \$900 per month reimbursement for lodging during the legislative session.

Another option is to provide for reimbursement of mileage in the amount provided under NDCC Section 54-06-09 (45 cents per mile) for travel between the employee's normal working and living residence and the State Capitol.

Another option is to provide an "outstate" compensation factor similar to the \$1 per day per session experience factor (limited to \$10 per day) provided to session employees. The outstate compensation could be on a daily or monthly basis, designed to provide additional compensation to employees whose normal working and living residence is outside the Bismarck-Mandan area.
