LEGACY FUND

The legacy fund was created in 2010 when the voters of North Dakota approved a constitutional amendment to provide that 30 percent of oil and gas production and oil extraction taxes on oil and gas produced after June 30, 2011, be transferred to the legacy fund. The principal and earnings of the legacy fund may not be spent until after June 30, 2017, and any expenditure of principal after that date requires a vote of at least two-thirds of the members elected to each house of the Legislative Assembly. Not more than 15 percent of the principal of the fund may be spent during a biennium. Interest earnings accruing after June 30, 2017, are transferred to the general fund at the end of each biennium. Oil and gas tax collections of \$446.3 million for fiscal year 2012 and \$824.7 million for fiscal year 2013 have been deposited in the legacy fund. The June 30, 2015, legacy fund balance is estimated to be \$3.1 billion.

¹For the 2009-11 biennium, state school aid included \$299.4 million, of which \$295.2 million was from the general fund and \$4.2 million was from the property tax relief fund for mill levy reduction grants to school districts. For the 2011-13 biennium, state school aid included \$341.8 million from the general fund for mill levy reduction grants to school districts.

²The Legislative Assembly in 2013 discontinued the mill levy reduction grant program and provided \$656.5 million to increase the mill levy buydown from 75 mills during the 2011-13 biennium to 125 mills during the 2013-15 biennium. The new integrated formula sets the local funding requirement at 60 mills and a percentage of identified local in lieu of property tax sources and local revenues. Base level support not provided by local sources is provided by the state through the integrated formula payment.

³The Legislative Assembly in 2009 provided, as state school aid, \$85.6 million from federal funds available through the American Recovery and Reinvestment Act of 2009. The Legislative Assembly in 2011 provided, as state school aid, \$21.2 million from federal funds available through the federal education jobs fund program.

⁴The Legislative Assembly in 2011 provided \$5 million from the oil and gas impact fund for rapid enrollment grants during the 2011-13 biennium.

⁵In addition, the Legislative Assembly in 2011 authorized the Department of Public Instruction to continue \$9 million of estimated excess funding for state school aid from the 2009-11 biennium to the 2011-13 biennium for state school aid per student payments.

STATE SCHOOL AID FORMULA - INTEGRATED FORMULA PAYMENTS

The Legislative Assembly in 2013 substantially changed the state school aid funding formula. The new formula discontinues the mill levy reduction grant program and provides the state will determine an adequate base level of support necessary to educate students by applying an integrated formula payment rate to the weighted student units. For the 2013-15 biennium, the integrated formula payment rates are \$8,810 during the first year of the biennium and \$9,092 for the second year of the biennium. This base level of support will be provided through a combination of local tax sources, local revenue, and state integrated formula payments. The local funding requirement is set at 60 mills and a percentage of identified local in lieu of property tax sources and local revenues. Base level support not provided by local sources is provided by the state through the integrated formula payment.

STUDENT ENROLLMENT AND NUMBER OF TEACHERS

AMERICAN COLLEGE TESTING PROGRAM SCORES

The American College Testing (ACT) program scores are designed to predict a student's potential for success in college. Below are average composite scores out of a possible 36 for North Dakota students as well as the average scores for regional states and the nation.

Comparison of Average ACT Scores

¹The 2011 graduating class in North Dakota was the first class required to take either the ACT or WorkKeys assessment in the 11th grade, resulting in an increase in the number of students taking the examination. The regional composite average includes only one other state that requires all students be tested--Wyoming--which has an average composite score of 19.8 in 2013.

²The regional composite is the average composite scores posted by students tested in Iowa, Minnesota, Montana, South Dakota, and Wyoming.

NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS

The national assessment of educational progress (NAEP) is the only nationally representative and continuing assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, and writing. However, because mathematics and reading are the only assessments required every two years by "No Child Left Behind" legislation, North Dakota tests science and writing in alternating years, resulting in four years between test years for science and writing.

Since NAEP assessments are administered uniformly using the same sets of test booklets across the nation, NAEP results serve as a common metric for all states.

Average NAEP Scores - Fourth Grade

Average NAEP Scores - Eighth Grade

¹The region NAEP score is the average of the Iowa, Minnesota, Montana, South Dakota, and Wyoming posted scores.

¹The region NAEP score is the average of the Iowa, Minnesota, Montana, South Dakota, and Wyoming posted scores.
