MAJOR INFORMATION TECHNOLOGY PROJECT LIFE CYCLE

This memorandum provides a summary of the project management life cycle processes, executive and legislative branch activities, and statutory provisions relating to planning and executing major information technology projects. Information related to major projects can be viewed on the Information Technology Department (ITD) project management webpage: https://www.nd.gov/itd/services/project-management.

Project Management Life Cycle Processes	Executive and Legislative Branch Activities	Related Statutory Provisions
Project origination - Evaluate projects proposed for the next planning cycle and reach a consensus on the projects to be selected	Agencies identify projects to create a product or develop a service that can solve a problem or address a need within the agency.	d d e e e e e e e e e e e e e e e e e e
	 Agencies develop a project proposal, including a business case and proposed solution, for each proposed project. The business case should include information on project description, project objectives, business need or problem, proposed solution, consistency and fit with the organization's mission, cost-benefit analysis, and project risks. 	
	3. Agencies prioritize information technology projects, submit their information technology plan, including project information, to ITD, and submit their information technology budgets into the budget analysis and reporting system. In most cases, the budget for a project is the initial cost estimate. The most accurate project budget is not available until the completion of the project planning process.	
	Section 54-59-07, reviews information regarding proposed major information technology projects for executive branch state agencies, excluding institutions under the control of the State Board of Higher Education and the judicial and legislative branches, and ranks those projects that receive the committee's affirmative	
	 a. ITD sorts proposed information technology projects over \$500,000 into the following three categories: 	Information Technology Advisory Committee regarding the prioritizations of major information technology projects to the Information Technology Committee, the Office of Management and
	(1) Projects requesting funds from the general fund for the investment or the ongoing maintenance costs.	Budget (OMB), and the Appropriations Committees of the Legislative Assembly.
	(2) Projects requesting funds from federal fund sources for the investment or the ongoing maintenance costs.	
	(3) Projects requesting funds from other special fund sources for the investment or the ongoing maintenance costs.	
	 State agencies self-score projects over \$500,000 based on return on investment, customer service benefits, internal efficiency benefits, operational necessity, and project risk. 	

North Dakota Legislative Council August 2019

Project Management Life Cycle Processes	Executive and Legislative Branch Activities	Related Statutory Provisions
,	c. ITD presents a preliminary report, including information regarding agencies' self-scoring, to the State Information Technology Advisory Committee. In addition, agencies present a short summary of each project to the committee.	
	 d. The State Information Technology Advisory Committee prioritizes projects for each of the categories. 	
	 e. ITD forwards the prioritized listings for each of the categories to the Information Technology Committee and OMB for consideration in the development of the Governor's budget recommendation. 	
	5. The Governor selects projects to be funded in the executive budget recommendation.	
	 ITD revises the prioritized listings to reflect those projects that are funded in the Governor's budget recommendation and presents the listing to the Appropriations Committees of the Legislative Assembly. 	
	7. The Legislative Assembly selects projects to be funded in the legislatively approved budget.	
	 ITD conducts a preliminary architectural review for projects funded and provides a recommendation to agencies regarding proceeding with the project. 	
	9. Agencies refine the business cases as appropriate for those projects funded in the legislatively approved budget.	
	 Agencies submit a copy of the final business case for a project to ITD. 	Section 54-59-05 provides ITD is to request and review information, including project startup information summarizing the project description, project objectives, business need or problem, costbenefit analysis, and project risks, regarding any major information technology project of an executive branch agency.
Project initiation - Define the overall parameters of a project and establish the appropriate project management and quality environment required to complete the project	 Agencies initiate the project by identifying the project sponsor, project manager, and project team; developing a project charter; and conducting a project kickoff meeting. A project charter is developed and executed to initiate a project and to secure commitment for the resources, including human, financial, and equipment, necessary for the project. A project charter should include information on project background, project scope, measurable project objectives, required resources, constraints, assumptions, and project authority. Agencies submit a copy of the project charter to ITD prior to any project expenditures or signing of vendor contracts. 	

Project Management	Executive and Legislative Branch Activities	Related Statutory Provisions
Life Cycle Processes Project planning - Define the exact parameters of a project and ensure all the prerequisites for the project execution and control are in place	13. Agencies complete planning for a project by completing and approving a project plan. A project plan should identify specific milestones throughout the project and their associated cost, schedule, and deliverables. At this time, agencies complete the budget for the project. This project budget is considered to be the baseline budget for all cost comparisons.	Statutory Frovisions
	14. Agencies submit a copy of the project plan to ITD after the plan has been approved by the project sponsor.	
	15. Agencies present a project startup report to the Information Technology Committee. A project startup report summarizes information from the business case, project charter, and project plan, including project description, project objectives, business need or problem, cost-benefit analysis, and project risks. A copy of the project startup report template is attached as Appendix A .	Section 54-35-15.2 provides the Information Technology Committee is to receive and review information, including a project startup report summarizing the project description, project objectives, business need or problem, cost-benefit analysis, and project risks, regarding any major project of an executive, legislative, or judicial branch agency, the State Board of Higher Education, or any institution under the control of the State Board of Higher Education.
Project execution and control - Develop the project or service the project was commissioned to deliver	16. The agency, ITD, and OMB, in consultation with the Attorney General, approve any contracts or agreements related to the project. An executive steering committee is appointed to oversee the project, including the overall project status, contract negotiation and execution, project budgets, project schedules, and project quality.	before submission to the executive steering committee. An executive steering committee consisting of the Director of OMB or a designee
	17. Agencies launch the project. The assigned project manager is to manage every aspect of the project to ensure all the work is being performed correctly and on time.	
	18. Agencies submit a project status report to ITD on a quarterly basis or when a project milestone exceeds 20 percent of planned cost or schedule. The status report includes an executive summary and information on budget, schedule, issues, risks, project accomplishments, and upcoming activities.	20 percent of planned cost or schedule, agencies must report to the State Information Technology Advisory Committee on corrective
	19. Each calendar quarter, ITD prepares a major project summary report that summarizes the performance of major information technology projects and submits the report to the Information Technology Committee. The current quarterly dashboard report and an archive of previous quarterly summary reports can be viewed in the reports section of the ITD project management oversight webpage. This summary report also includes information

	on major, multi-biennium "iterative" projects. A separate report for iterative projects is presented by ITD or the appropriate agency to the Information Technology Committee. A copy of the iterative report template is attached as Appendix B .	
	20. Agencies formally acknowledge all deliverables produced during project execution and control have been completed, tested, accepted, and approved by the project sponsor.	
Project closeout - Assess the project and derive any lessons learned and best practices to be applied to future projects	21. Agencies complete a postimplementation review for the project in order to assess the success of the project and to capture historical information. The postimplementation review should include information on the measurement and attainment of project objectives, project budget and schedule variances, and lessons learned.	
		Information Technology Advisory Committee if upon the completion of the project, the budget for the project exceeded the original budget
	23. Agencies submit a copy of the postimplementation review to ITD.	Section 54-59-05 provides ITD is to request and review information, including project closeout information summarizing the project objectives achieved, project budget and schedule variances, and lessons learned, regarding any major information technology project of an executive branch agency.
	information from the postimplementation review, including the project objectives achieved, project budget and schedule	Section 54-35-15.2 provides the Information Technology Committee is to receive and review information, including a project closeout report summarizing the project objectives achieved, project budget and schedule variances, and lessons learned, regarding any major project of an executive, legislative, or judicial branch agency, the State Board of Higher Education, or any institution under the control of the State Board of Higher Education.
